EXPERIENCE

Managing Consultant – iOS Engineering (Lead iOS Engineer)
Systems Limited
11/2022 - Present

- Lead architecture, design and development of enterprise native iOS applications.
- Manage iOS and Android engineering teams while mentoring senior engineers.
- Led migration from UIKit to SwiftUI and modern MVVM/Clean Architecture.
- Optimized APIs, application performance and reduced crash rates.
- Owned App Store releases, CI/CD pipelines and production deployments.
- Collaborated with Product Managers, QA, UX and Backend teams.
- Used ChatGPT, GitHub Copilot, Claude, Gemini and Cursor AI to accelerate development, debugging, code reviews, documentation and architecture decisions.

Manager iOS
Appiskey
12/2021 - 11/2022

- Managed an 8-member iOS engineering team.
- Defined engineering standards and scalable architecture.
- Led sprint execution, technical planning and release management.
- Mentored developers through code reviews and technical coaching.

Principal Software Engineer
Creative Chaos
07/2018 - 11/2021

- Technical Lead for enterprise mobile applications including Litterati and UNation.
- Led engineering teams of up to 13 developers.
- Designed scalable mobile architecture using Swift, MVVM and Clean Architecture.
- Collaborated with international clients and cross-functional teams.

iOS Consultant
GranPlay
10/2017 - 06/2018

- Developed enterprise iOS applications using Objective-C.
- Implemented offline caching, Realm and App Store releases.

SUMMARY

Lead iOS Engineer and Mobile Engineering Leader with 16+ years of experience architecting, developing and delivering enterprise-grade native iOS applications across Banking, Government, Media and Enterprise domains. Expert in **Swift, SwiftUI, UIKit, Objective-C, MVVM, Clean Architecture, CI/CD, GraphQL and mobile architecture**. Successfully led cross-functional engineering teams, modernized legacy applications, delivered high-performance mobile platforms and managed complete App Store release lifecycles. **AI-Assisted Software Engineer** experienced in leveraging **ChatGPT, GitHub Copilot, Claude, Gemini and Cursor AI** for code generation, debugging, architecture reviews, documentation, unit testing, refactoring and developer productivity while maintaining Engineering best practices.

SKILLS

Swift	Expert
SwiftUI	Expert
AI-Assisted Development	Advanced
Technical Leadership	Advanced
Mobile Architecture	Expert
Git	Expert
CI/CD	Advanced
GraphQL	Advanced
REST APIs	Expert
MVVM	Expert
Objective-C	Expert
UIKit	Expert

LANGUAGES

Urdu	Native
English	Fluent

Lead Mobile Developer

Sharjah eGovernment

11/2014 - 09/2017

- Led iOS and Android engineering teams for government applications.
- Architected secure enterprise mobile applications.
- Implemented Face ID, Keychain and security best practices.
- Managed sprint planning, estimation and technical delivery.

Senior iOS Developer

iLabs Apps

03/2013 - 10/2014

- Developed native iOS applications using Objective-C and UIKit.
- Integrated REST APIs and third-party SDKs.
- Performed code reviews and mentored junior developers.

Assistant Software Architect

Axact

06/2012 - 03/2013

- Developed enterprise iOS applications and participated in architecture decisions.
- Optimized performance and managed App Store releases.

Software Engineer (iOS)

M3 Technologies

03/2010 - 05/2012

- Built native iPhone and iPad applications using Objective-C.
- Integrated REST/SOAP APIs and collaborated with Android and backend teams.

EDUCATION

Software Engineering

University of Karachi

01/2006 - 12/2009

Bachelor's Degree
